

(SENIOR) QUALITY ENGINEER (m/f/d)

Inova Semiconductors a Munich-based fabless semiconductor manufacturer founded in 1999, designs, markets and sells its products and licensed technologies both directly and through a global network of distributors, heavily focusing on the automotive market. The core competence of Inova resides in the development and marketing of high-speed digital data transmission semiconductor technologies for harsh automotive environments.

APIX®2 and APIX®3 are the company's flagship product lines that have delivered major advancements in digital multimedia transmission, particularly in the automotive, industrial and transportation market segments. Inova Semiconductors has also entered the emerging smart digital LED market under the ISELED® brand name as member of an open industry-wide alliance.

JOB SUMMARY

- Responsible for customer returns (creation of 8D reports, coordination of internal/external failure analysis, communication with customers, implementation of corrective actions).
- Planning of product qualifications according to the AEC-Q100 standard. Coordination of the qualifications with external laboratories.
- Support of the new product introduction process at the customer (APQP).
- Creation of PPAP documentation.
- Supplier Quality Management of external manufacturing partners.
- Support of the change management processes (PCR, PCN, PDN).
- FMEA creation.
- Support of Material Management (IMDS, RoHS/REACH, Conflict Minerals Reporting).
- Support of customer audits.

KEY QUALIFICATIONS

- A technical or natural scientific degree (TU/FH) chemistry, electrical engineering, microelectronics, materials science, physics or a comparable study.
- Organized and structured working style.
- Strong interpersonal and intercultural skills.
- Basic knowledge of semiconductor physics, processes (CMOS) and chip packaging technology.
- Knowledge of automotive industry and related quality requirements/standards.
- Knowledge in quality systems, methods, procedures and tools.
- You enjoy challenges/finding solutions for complex issues.
- "Hands-on" mentality.
- Fluent in German and English.
